Bekasi, West Java

Fresh Information Systems graduate with hands-on experience in Excel, Python, Power BI, SQL, and R for data processing and visualization. Recently earned a bachelor's degree with a strong track record in both academics and organizational leadership. Currently pursuing self-development through online learning and small entrepreneurial activities, while actively seeking data-related roles across various industries where data-driven decision-making is key. Eager to bring a fresh perspective and strong analytical mindset to real-world challenges.
